

City of Whittier Boat Harbor – Rebuild, Phase I – Update # 11
May 15, 2011

The parking lot from the Marine Travel Lift to just before the East Gangway has been blocked off for construction staging area and contractor's use.

Parking is still limited. Vehicle parking is available at the East end near the East Gangway-- please watch for signage. Trailer parking is at the Whispering Falls Parking Lot which opened the last week of April.

Check with the Harbormaster's Office staff for updated parking information.

Reminder: The temporary Harbormaster's Office is located in the 1st floor meeting room at the Inn at Whittier. If the wind is light to moderate, you can use the west (tunnel-side) outside entrance. The best entrance when it is extremely windy is the front side, single door at the top of the wheel-chair accessible ramp.

Construction Update

- The sheet pile installation and dredging is finished. The contaminated dredge materials have been hauled to the Head of Passage Canal and stored appropriately.
- All 8" boardwalk pile has been installed. All except one 16" pile has been installed.
- The water and fire water Installation is waiting for arrival of the connecting brackets.
- Finger Float Installation will happen after the water and fire water system is installed.
- Gangway Platform piles are installed—waiting for arrival of pile cap beams.
- Harbormaster Building has been moved back into place; it is estimated that there will be generator power to building by 5/25/11.
