

**City of Whittier Boat Harbor – Rebuild, Phase I – Update # 10
April 22, 2011**

The parking lot from the Marine Travel Lift to just before the East Gangway has been blocked off for construction staging area and contractor's use.

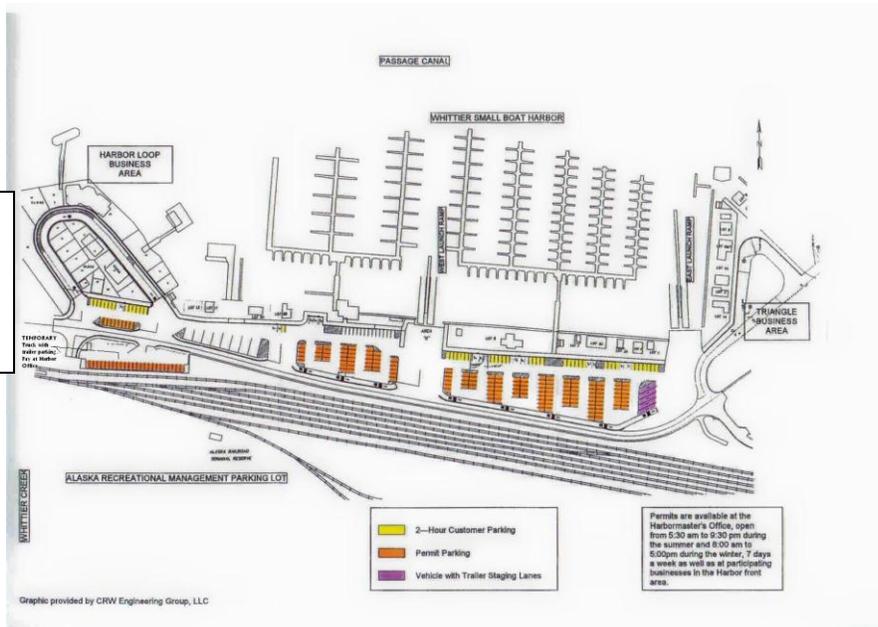

The sheet pile installation is finished and the subcontractor doing this part of the project left Whittier about mid-April.

Dredging has been intermittent; the contaminated dredge materials are being hauled to the Head of Passage Canal and stored appropriately.

Parking during April and May will be limited. Vehicle parking is available at the East end near the East Gangway--please watch for signage. Winter/Spring trailer parking will be allowed on the corner between the RR tracks and State Highway. Watch for the red and white signs. Please park vehicles with trailers in the North/South direction. Whispering Falls Parking Lot opened Wednesday, April 20, 2011, but had to close again on April 21st because trucks and trailers were getting stuck.

Trailer parking will be allowed on the corner between the RR tracks and the State Highway. Watch for the red and white signs. This is only until Whispering Falls Lot is up and running!

Parking for trailers allowed until Whispering Falls Lot is open. They hope to open the week of April 25.

Check with the Harbormaster's Office staff for updated parking information.

Reminder: The Harbormaster's Office is located in the 1st floor meeting room at the Inn at Whittier. If the wind is light to moderate, you can use the west (tunnel-side) outside entrance. The best entrance when it is extremely windy is the front side, single door at the top of the wheel-chair accessible ramp.
