A. Bonds for Harbor Rebuild

Kyle Sinclair opened up the discussion by explaining the purpose for the bond was to go to the 3rd Phase for the Harbor rebuild project as it was already approved. He mentioned funds left over from the previous project and asked Council if the money can be combined and if a one-time payment could be done. He said that if this was an option, a public notice for a public hearing will be advertised. He explained further.

The Commission discussed the topic heavily.

Annie Reeves told the Commission that the City cannot forecast their finances and there is not a clear understanding at this point. She stated that she cannot give very clear direction as she does not have confidence as to the City's finances. She reported that she is working with the City's accounting/firm program (Caselle) to help reconcile the City's books so that she can see where the City stands financially. She continued and asked the Commission to discuss and contemplate before moving forward.

Greg Clifford summarized the income from the Harbor from previous years and inquired about the \$400,000. Dave Goldstein shared similar concerns.

Ron Graham asked about the Cruise Ship head tax. Annie stated that during the City Council meeting, a question was raised as to what portion of the CVP funds were already encumbered. She explained further by reminding the Commission that the Delong Dock and the City Building are not currently in the budget. She indicated that on top of these 2 unknown quantities, adding \$500,000 worth of debt to the City while not having a clear understanding of the City's finances is not how the City should move forward.

Mark Mitchell mentioned a grant writer for the City and asked if it was possible. Annie replied that it was. Commission agreed that a grant writer will be best for the City.
