8. NON-ACTION BUSINESS:

A. Tank Farm

Don Moore reported that there will be some activity between four agencies this summer. The agreement will be put together, the process involving the clean-up and what conditions the land has to be for the land to be released.

B. Land Trades with Alaska Railroad

Don Moore is putting together a RFP for a land management consultant to lay out a road map for us to determine what needs to be done in order to do a land exchange with the Alaska Railroad. The Legislature needs to approve the plan. Don provided the commission members a copy of the RFP.

C. Hazard Mitigation Plan

Charlene mentioned that we leave this topic on the agenda permanently to show documentation that we are continually working on it.

D. Smitty's Cove Park

All the surveys have been completed; they need to be sent to NOAA and the Coast Guard. Scott Korbe has the underwater survey that was done and we also have the land survey by WH Pacific. In order for this to be the first marine park, it needs to go before NOAA and the Coast Guard. Dan Blair asked Charlene what needs to be done at this point. Charlene replied that the last she heard, it just needs to be sent off and approved. Smitty's Cove brings in money for the city during the winter months because it attracts divers.

E. Whittier Historic Railroad Plaza

Don Moore reported that the plans are completed and he is waiting for the bid packet. The project is broken into three parts. First is to move the monument. The second is to build the pavilion. The third phase is to install the lighting. He was told that the monument should be moved this summer. The pavilion and lighting will be completed next summer.

F. Tideland Zoning

Mayor Daniel Blair inquired about the tideland zoning. There was a brief discussion about this.
